Communicated

Subd to Secty

D. G. Ramachandra Rao has been a clerk of the Excise Branch for several years and knows the work thoroughly. I shall of course spare his services as he is required elsewhere, but I cannot get on without another Clerk in his place as there is only one other man (K. Srinivasa Rao) in the Excise Branch. I therefore beg to suggest that Gopalkrishnaiya who was sent to work under the 3rd Councillor and who is now ill, may be sent to the Excise Branch, in when he returns from leave, in the place of D. G. Ramachandra Rao

The correspondence relating to Excise is somewhat technical and intricate, and the two Clerks working in that Branch should both of them have a good knowledge of the subject

6/8/01

6/8

I am unable to spare this clerk unless he is paid for from the Agrl Deptt. I fear there is no budget provision in ~~his~~ the estimates from which this addl expense can be met. May the Agrl Chemist be asked how he means to meet the additional Expenditure.

6/8/1901

To the 1st Councillor.

6/8/01

The main object with which Ramachandra Row's services were asked for was to enable Dr Lehmann to put him in charge of the land taken up for experiments near the laboratory & also to do some work in Entomology. Rama Chandra Row was selected because he has the necessary qualifications for the

of work. It would
be a waste of person
employed on
on special subjects on
work which clerks of
ordinary intelligence
can do with a little
training in the office.
I hope the Secretary will
find it possible to
attach Ramachandra
Row to Dr Lehmann
without increase to
the Res budget. I believe
that a man to replace
Ramachandra Row
can be easily found
in some depth of the
Devans Office, but
this is a matter which
it is for the Secy: to
consider. If he has
any difficulty in finding
Ramachandra Row
he is requested to explain
the object of Ramachandra
Row's services being applied
for & the Devan is
to obtain his orders.

I feel only repeat
that when we have
the services of an
expert like Dr Lehmann
it will be a matter
for regret if during
the time he is with us
we do not make the
best possible use of
the opportunity & give
a practical training
to some of our promising
Agricultural graduates
to enable them to continue
Dr Lehmann's work
if he should finally
decide that we cannot
afford to retain him
~~after~~ when his term of service
is over

I.R.O. Jackson Esq.
7th August 1901

Will the Dy Secy kindly see
if he can find a way
of getting a substitute

out of other hands in the office. But if we can do so, I should of course like to show a reduction in our office, instead of keeping on superfluous men. It is certainly a pity that men capable of special work should be wasted as mere clerks.

9/8/1907.

I beg to say that a competent clerk should be sent to the Excise Branch as substitute for D. G. Ramachandra Rao. If this can be arranged from among the officials already in the office, I have no objection. Among such officials I should prefer Gopalkrishnayangar as he knows Excise work.

9/8/07

Rev. Br.

Can you spare Gopalan

Krishnaiengar when
he returns from leave?
If he is to go to L.B.B.
let him leave Mr. Ramaahs
opinion also?

Hon'ble Mr.

15th Sir, When S.V. Krishnasamy Iyer, who was dealing with correspondence connected with Bangalore & Kolar Districts as well as the Kolar Gold Fields Sanitary Board, was recently sent for duty at the III Councellor's house, the arrangement was stated to be temporary and the Assistant promised to send Gopalakrishna Iyengar there on his return from leave. If this is not done, the work in the Branch, I respectfully beg to submit, will suffer.

Since the date of S.V.K.
Iyer's

Iyer's transfer, his work is being distributed among other clerks, some of whom have already got very heavy work, and some papers are being unavoidably × delayed notwithstanding the fact that I have to work in and out of office hours.

Submitted. Dr J 17/8/07

× The delay was once noticed by the Dewan. For the efficient working of the Deptt. I beg the Secretary to be pleased to allow me the services of Mr E Sankaranarayana Iyer B.A. who was sent in lieu of Venkatadasa Iyer B.A. who was sent to the 3rd Councillor's house

Subd to Secty

7/8/1907.

I shall see about this. Ramachandra Rau may be sent

as a temporary
measure to the
Agt Chemist. But
I believe there is one
Ilearnsamin work
up there. Does he
belong to that depart-
ment?

GOVERNMENT OF MYSORE

Bangalore July 24th 1901.

Dear Mr. Madhava Row

In continuation of our conversation this afternoon I request you to kindly have the services of Mr. D. G. Ramachandra Row, clerk Excise branch of the Dewan's office transferred to my office As I told you I am very much pressed with work, so that the two men I have on my office cannot overtake it Furthermore I am starting to cultivate the land near the Laboratory, and

and require Someone to be in charge there From what Mr. Krishnasamy Iyer, my chief clerk tells me Mr. Rama-chandra Row is likely to prove a satisfactory man He is I believe a graduate of the Madras Agricultural College at Sardapet and being acquainted with office work as well I hope he will turn out very satisfactory. I should be very glad indeed if Some further assistance could be given me Such as we spoke about But possibly I had better leave that for another time, as it might delay the transfer of Mr Ramachandra Row I

I have forgotten to mention when I saw you, the subject of fencing the plot at the Laboratory. Of course we will have to keep cattle and for that matter persons also from tramp-ling over our experimental plots. A five strand barbed wire fence would I think be quite effective, and cheaper than any other satisfactory fence which we could put up. But as there is such an outcry against barbed wire fencing possibly it might be wise to use some other form of fence. But personally I do not think the barbed wire fences are at all dangerous to cattle and horses if a board, rail, or bamboo or something else

close which the animals could easily see is put on top of the posts, and I have had very considerable experience with barbed wire fences in America

Yours very Sincerely
C. Lehmann

Sec. / Can R Ram be stationed at Bhavani as assistant? 6/8 Hmz

To The Secretary / Please see Mr. Ramachandra Rao / Retd. to Mr. Ramachandra Rao / Mr. Parthasarathy Rao / 25/7/1907

I think Ramachandra Rao may be placed at Dr Lehmann's disposal for work connected with the farm near the Laboratory. I would attach a few more young men with Rama Chandra Rao's qualifications & study entomology & allied subjects

The wire fence may be ordered
